

SRTC Landscaping and Horticulture News

On Tuesday, October 28th, the SRTC Landscaping and Horticulture students picked 986 pounds of apples at Ferment Farm in Springvale which were donated to the Good Shepard Food Bank. Students worked alongside farm owners Philip and Michele DesAutels picking apples as part of an orchard gleaning day. Students learned that gleaning is a process by which farmers invite people to come pick all edible food from the property for donation once the farmers are done with their own harvest. Food gets donated to food pantries creating greater food security for local families. It was a great day for all! Thank you to Philip and Michele for opening their farm and hearts to us!
